NEWSLETTER - DECEMBER 2014

Explore Coronary Capabilities and Meet a Compassionate Co-Founder

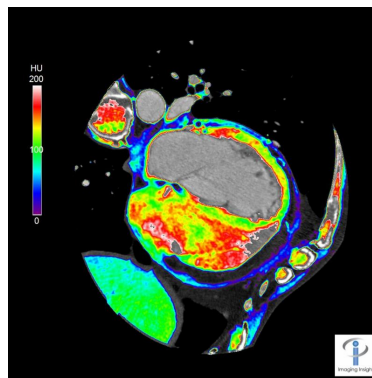

Discover the Benefits of Imaging Insight, LLC: Coronary Calcium Imaging

[Atherosclerosis](#) occurs when plaque builds up inside artery walls and, over time, may reduce blood flow to parts of the body, resulting in coronary heart disease, heart attack, stroke, and other ailments. [Coronary artery calcium \(CAC\) scoring](#) as measured through CT scan is an effective way to detect and measure calcification of coronary arteries and assess cardiac risk in asymptomatic patients.

Through 3D reconstructions of CTs, [Imaging Insight](#) provides cardiologists with a robust picture of calcification levels that includes cross-sectional images, schematic illustrations, and analysis and precise metrics for calcium scoring.

[Click for more CAC images and information.](#)

Imaging Insight Cardiac Imagery

Employee Spotlight:
Cindy Elgamal, RN, BSN, Vice President & Co-Founder,
Imaging Insight, LLC

New Name. Same Ground- breaking Capabilities.

We've changed our name from Tomos, LLC to **Imaging Insight, LLC** - a name that exemplifies the advantage delivered to clients through advanced imaging solutions.
